ATTENTION: Mr. Benjamin Wake

Dear Mr. Wake:

The Anaconda Company has acquired the 160 acres of land which we previously owned near the aluminum plant.

We had previously given you permission to enter upon this land for the purpose of testing and the installation of testing equipment.

In view of the fact that we have now sold this land to Anaconda any further entry would have to be at the consent of Anaconda and we no longer have the right to give permission to enter upon said premises for testing purposes or to permit the maintenance of the existing testing equipment upon said said premises.

Any further right to enter upon said premises or to maintain testing facilities on said premises will have to be obtained from the Anaconda Company.

Thank you.

Sincerely yours,

Harold R. Dehlbom
